January 31st 2018

Dear parents, carers and students

**Fairfield Celebrates British Science Week with the Royal Institution!  
Friday 9<sup>th</sup> March 2018**

I am delighted to tell you that we have secured a fantastic day from the Royal Institution as one of the first events run via our new Teaching School status. The Royal Institution of Great Britain was set up in 1799 by the leading scientists of the day to develop scientific education and research, and is internationally renowned. We are very lucky to be able to offer this experience to our students, staff and the local community and hope that everyone will want to be part of it.

During the afternoon of the 9<sup>th</sup> March, Key Stage 3 students will work with presenters on "Feel the Power", an interactive demonstration and presentation all about electricity and magnetism and after school, our staff will have training from the Royal Institution staff together with teachers from other schools.

At 6pm there will be a special performance open to the public, suitable for everyone including children, called "Bringing Science to Life". As you will see on the attached flyer, this show takes us through some of the great scientific discoveries made at the Royal Institution and is designed to introduce interesting science facts through fun, interactive and above all exciting demonstrations.

There is a small ticket price (Adults £2.50, Under 16s £1.00 and under 5s free!) to cover the cost of having the Royal Institution with us, and the PTFA will be selling drinks and hotdogs from 5.30pm to help the evening go with a swing. Please purchase your ticket in advance so that we are able to ensure enough seating and sausages! You can buy tickets from the school office; please return the slip below with a cheque payable to "Fairfield High School", or cash.

We really hope that you and your family will be able to join us for this amazing event and watch science come to life for all of us.

Best wishes

Sue Gaston

**Bringing Science to Life event 9 March 2018**
