POST OF DESIGN TECHNOLOGY TEACHER AT FAIRFIELD HIGH SCHOOL

Main Scale 0.8 maternity cover contract; to start September 1 2017

Closing date: Friday 31st March 12 noon.

We are seeking an excellent, qualified classroom teacher who can maintain the enthusiasm of our current post holder and motivate all our students and engage them with Design Technology throughout Key Stage 3 together with Construction and Engineering in Key Stage 4. We are a high-achieving school and expect teaching across the curriculum to be good or outstanding; our students deserve nothing less.

Design Technology is housed in a large purpose built workshop with a variety of machinery and equipment that allows for a broad range of student opportunities working with wood, metal and plastics. Technology works closely with the other areas of Expressive Arts, in particular Art, Creative Crafts, Computing and Food to ensure students have a range of high quality experiences in practical subjects.

If you have the ambition, drive and commitment to get stuck into this role, we would love to hear from you. Design Technology is part of the Expressive Arts Faculty and you will have plenty of support from some very experienced and skilled team members. At the same time, you will have the opportunity to build and develop your role to encompass your own skills and interests.

At Fairfield we takes our safeguarding obligations very seriously and all employees will be required to undertake an enhanced DBS check before taking up any post.

Interviews will be held on 5th April 2017 and shortlisted candidates will be informed by email and letter.

Good luck with your application – and we look forward to hearing from you.

Sue Gaston
Head Teacher
